

Tianjin Pingyuan Hardware

- ISO9001 Certified Fastener and Metal Fabricator

Established in 1992, Tianjin Pingyuan Hardware Co., Ltd. is located in the beautiful seaside city Tianjin, China. It's one of the key fastener and metal fabrication enterprises in Tianjin and northern China. Our factory mainly manufactures all kinds of washers and metal stamping parts. We fabricate special washers and structural components for industrial buildings, ship building, railway, agriculture, automobile and home gardening.

They have the ability to manufacture 10 thousand tons of products annually. The high tensile strength washers with "PY" marking have obtained the consistent high praise from customers both at home and abroad. Cast-in-plates, cast-in-stumps, cleats and other metal parts made by welding, lathing, stamping, bending deep drawing are also provided as per engineering. The factory is equipped with Multi-station Cold Headers and all kinds of stamping machines. It has strong technological force and complete quality inspection machines. The products can meet all requirements from standards and customers.

They have been in taking the spirit of servicing customers with sound quality, competitive price and excellent service since the establishment of the factory. The company has been awarded ISO9001 certificate since 2000. Products are mainly exported to U.S.A, Australia, Europe, Asia and other countries. They are longing for the opportunity to cooperate with more customers and create more fruitful business relationship. ■
